QUIET BIRD CONSULTING LLC

NETWORKING AND DISTRIBUTED SYSTEMS ARE REVOLUTIONIZING THE WAY WEALTH IS CREATED AND RETAINED. THEY INCREASE OPERATIONAL EFFICIENCIES, REDUCE COSTS, AND OPEN NEW MARKETS. TO BENEFIT FROM THIS OPPORTUNITY, NETWORKING AND DISTRIBUTED SYSTEM PRODUCT COMPANIES MUST INNOVATE TO DELIVER SOLUTIONS THAT BEAT THE COMPETITION. THIS REQUIRES A CLEAR UNDERSTANDING OF THE PROBLEMS THEIR CUSTOMERS FACE AS WELL AS OF THE TECHNOLOGIES AVAILABLE TO SOLVE THESE PROBLEMS. IT IS RARE WHEN A COMPANY HAS ALL THE EXPERTISE IT REQUIRES IN HOUSE. QUIET BIRD CONSULTING HELPS COMPANIES CLOSE THEIR EXPERTISE GAPS IN ORDER TO ALLOW THEM TO BRING HIGHLY COMPETITIVE PRODUCTS TO MARKET QUICKLY.

"The people who put out the best technology at the best price point win."
—Craig Barrett, CEO , Intel Corporation in an interview with Dan Farber & David Berlind of ZDNet Tech Update, May 7, 2002.
